

# Brian Stewart

Software Developer

Software Developer, new to the industry. Willing to direct large-scale teams or work hands-on to complete extremely difficult projects. Brings both cutting-edge programming ideas and exceptional interpersonal skills to collaboration roles.

## Work History

2022-08 -  
Current

### Junior Full Stack Developer

Walgreens, Austin, TX

- Reviewed code, debugged problems and corrected issues.
- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
- Participated in requirements gathering to solidify prerequisites and determine best technical solution to meet business needs.
- Analyzed existing software implementations to identify areas requiring improvement.
- Delivered performance-driven and user-centric websites that met all business requirements.
- Adjusted design parameters to incorporate new features.

2021-10 -  
2022-07

### Associate Developer

Lineups, Austin, TX

- Documented technical workflows and knowledge in private wiki for education of newly hired employees.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Assisted in business acquisition efforts by designing customized solutions for proposals to potential customers.
- Collaborated on stages of systems development lifecycle from requirement gathering to production releases.
- Planned and developed interfaces that simplified overall management and offered ease of use.
- Developed software for both desktop and mobile operating systems.
- Designed and produced audio and visual assets for final product use.
- QA tested all new features and updates in both desktop and mobile environments.

2018-01 -  
2020-03

### Technical Director

The Marco Players Theatre, Marco Island, FL

- Founded interdisciplinary technology review protocols to smooth departmental upticks in spending by better aligning purchase efforts with company-wide goals.
- Guided, coached and lead project teams, delegating tasks and evaluating performance and progression of project pace.
- Oversaw testing of equipment and components to check for defects.
