Brian Stewart

Software Developer

Software Developer, new to the industry. Willing to direct large-scale teams or work hands-on to complete extremely difficult projects. Brings both cutting-edge programming ideas and exceptional interpersonal skills to collaboration roles.

Work History

2018-01 - 2020-03

Technical Director

The Marco Players Theatre, Marco Island, FL

- Founded interdisciplinary technology review protocols to smooth departmental upticks in spending by better aligning purchase efforts with company-wide goals.
- Guided, coached and lead project teams, delegating tasks and evaluating performance and progression of project pace.
- Oversaw testing of equipment and components to check for defects.
- Developed suggestions for technical process improvements to optimize resources.

2017-01 - 2018-01

Sound Engineer

Self-employed, Austin, TX

- Controlled microphones, sound levels and outputs to produce high-quality tracks for variety of clients.
- Mixed and mastered vocal arrangements and music compositions, and optimized songs and albums using elements, including equalization, compression and stereo enhancement.
- Collaborated with producers and performers to determine and achieve desired sound for productions.

2017-01 - 2018-01

Assistant Board Operator, Radio Producer

Entercom Austin, Austin, TX

- Executed live, breaking and syndicated broadcasts with no errors.
- Kept station compliant with compliance requirements by curating content and preventing inappropriate airings.

2015-01 - 2016-01

Master Control Operator

ATX Underground, Austin, TX

- Monitored channels for compliance with federal regulations and strict company rules.
- Kept signal strong, clear and reliable with continuous monitoring and optimization of broadcast equipment.
